PROJECT SPLASHY

Hi

Hi, I'm Monika.

Working in one of the most underprivileged areas of London, I've had the privilege of meeting thousands of children, teens, and families from all walks of life. One thing that stands out is that many of them have stopped dreaming—or never dreamed at all. Something as essential as dreaming, which should be free and accessible to everyone, seems to have slipped away. That's when I thought of the book, and Splashy came to life. But before I share the whole story, let me introduce you to Project Splashy through a song. I'm not a singer or a songwriter, but I've released a song. How? Because I chose to dream about it, day and night. Everything starts with a dream! You don't need to know how you'll achieve it—just start dreaming.
